

**GIS Users Group Meeting  
Strategic Planning Session  
August 29, 2008**

**AGENDA**

1. Welcome and Announcements
2. Icebreaker
3. Data Distribution/GIS Applications  
How do people want to be able to use the data within applications, etc.?  
Do they want to be able to access it online, interface with other programs, etc.?
4. GIS Training  
On what sort of things do people need training as it relates to GIS?  
  
For example, some may want information on how to use the new online viewer,  
others may want to know how to use GIS data to match a table of addresses to  
known addresses (geocoding).
5. Wrap-up for the day
